Dear Warden Cunningham,

The Municipality of Digby is moving forward with the revitalization of the Highway 101 Task Force. The purpose of this Task Force is to advocate for the timely completion of Highway 101 between Marshalltown and Weymouth - a section that remains unfinished and continues to raise serious concerns for public safety, economic development, and regional connectivity.

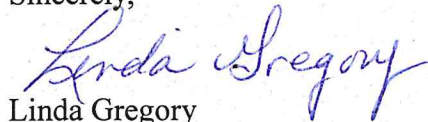

Highway 101 is the main trucking and commuter route for Western Nova Scotia. Completion of this highway is vital to reducing collision risks, improving traffic flow, and supporting industries that rely on safe and efficient transportation. A unified regional voice will help ensure that this longstanding priority is given the attention it deserves.

We are inviting MP Chris d'Entremont, as well as municipalities and MLAs from Annapolis through to Argyle to join the Task Force. Your participation would strengthen this effort, but we understand that each municipal unit and office will make its own decision about involvement.

Please confirm whether you wish to join the Highway 101 Task Force by contacting Taylor Robinson, Executive Assistant ([trobinson@digbymun.ca](mailto:trobinson@digbymun.ca)). Once we know who wishes to participate, the Municipality of Digby will coordinate and organize the first meeting.

Thank you for considering this important initiative. We look forward to the possibility of working with you on advancing the completion of Highway 101.

Sincerely,

Linda Gregory  
Warden  
Municipality of Digby
